
INDEX TO VOLUME 12

ISSUES 1-12

Jan 1989-Dec 1989

A John Wiley Sons Medical Publication

AUTHOR INDEX TO VOLUME 12

This index lists, in alphabetical order, the names of authors of all articles, abstracts, and letters. Full citation is provided under the first author only, with reference made from joint authors. Abstracts and letters are distinguished from articles by the following code: A = abstract, L = letter.

A

- Abresch RT, see Enrikin RK
 Adobbati L, see Moggio M
 Ahlskog JE, see Litchy WJ
 Aitkens S, Lord J, Bernauer E, Fowler WM Jr, Lieberman JS, Berck P: Relationship of manual muscle testing to objective strength measurements, 173-177
 Åkerström G, see Joborn C
 Alameddine HS, Dehaupas M, Fardeau M: Regeneration of skeletal muscle fibers from autologous satellite cells multiplied in vitro. An experimental model for testing cultured cell myogenicity, 544-555
 Alarcon GS, see Joy JL
 Albers JW, see Bromberg MB
 See Donofrio PD
 see Reincke H
 Albers JW: AAEE case report #4: Guillain-Barré syndrome, 705-711
 Albers JW, Kelly JJ Jr: Invited review: Acquired inflammatory demyelinating polyneuropathies: Clinical and electrodiagnostic features, 435-451
 Albrand JP, see Authier B
 Alderson K, Pestronk A, Yee W-C, Drachman DB: Silver cholinesterase immunocytochemistry: A new neuromuscular junction stain, 9-14
 Alderson MK, see Petajan JH
 Alessi AG, see Donofrio PD
 Alexander LO, Stigler J: Effect of stimulus site and distance on compound muscle action potentials, 755-A
 Alexander LO, Stigler J, Olney RK: Normal variability of lower extremity compound muscle action potential measurements, 755-A
 Alex A, see Kern RZ
 Al-Rajeh S, Iyer V, Olson WH: Effect of

- diltiazem on 2,4-D-induced myotonia in rats, 470-472
 Amassian VE, see Maccabee PJ
 Aminoff MJ, see Olney RK
 see Reisin RC
 see So YT
 Amit R, Gutman A, Shapira Y: Muscle carnitine deficiency in neurogenic atrophy, 245-246-L
 Andres PL, see Kelly JJ Jr
 Angelini C, see Biral D
 see Seltzer WK
 Angelo J, see Thomas TD
 Anthony DC, see Krendel DA
 Antonini G, see Priori A
 Araki S, see Uchino M
 Arancio O, Cangiano A, de Grandis D: Fibrillatory activity and other membrane charges in partially denervated muscles, 149-153
 Arendt-Nielsen L, Mills KR, Forster A: Changes in muscle fiber conduction velocity, mean power frequency, and mean EMG voltage during prolonged submaximal contractions, 493-497
 Arnason BGW, see Maselli RA
 Arnold TW, see Oh SJ
 Asayama K, Hayashibe H, Dobashi K, Kato K: Lipid peroxide and antioxidant enzymes in muscle and nonmuscle of dystrophic mouse, 742-748
 Assal J-P, Lindblom U: Consensus conference on diabetic peripheral neuropathy, February 8-10, 1988, San Antonio, Texas, 246-L
 Astruc JM, see Campbell WW
 Audet AMJ, see Chimowitz
 Authier B, Rossa A, Albrand JP, Decorps M: Prediction by ³¹P-NMR of the irreversibility of ischemic injury in rat skeletal muscle after ligation of the femoral artery, 20-25
 Avila O, see Kuntz RW
 Awerbuch G, see Spitzer AR

B

- Badenhorst ME, see Isaacs H
 Badke A, Irintchev AP, Wernig A: Maturation of transmission in reinnervated mouse soleus muscle, 580-586
 Baker JB, see Rao JS
 Balatbat G, Kresch E, Baran EM, Mandel S, Whitenack S, Betz R: Correlation/noise analysis of somatosensory evoked potential waveforms, 773-A
 Barald KF, see Jay JC
 Baran EM, see Balatbat G
 Barillari A, see Damiani E
 Barkhaus PE, see Stewart CR
 Barnes WS, see Williams JH
 Barnwell-Smith J, see Brandstater ME
 Barohn RJ, LeForce BR, McVey AL, Butzin CA, King R, Marshall DW: Peripheral nervous system involvement in human immunodeficiency virus (HIV) infection: A prospective study of a large cohort of HIV-seropositive individuals, 762-A
 Barry DT: Comparison of human and frog muscle sounds, 752-A
 Barton L, see Tomski MA
 Bartoszek, DM, see Cuettter AC
 Bauer SB, see Sethi RK
 Bencke R, see Meyer B-U
 Benga G, Popescu O, Pop VI, Ionescu I, Muresan A, Borza V, Hodárnău H, Popescu M, Serbu AM, Benga I: Studies of water permeability and proteins of erythrocyte membranes in patients with Duchenne muscular dystrophy, 294-301
 Benga I, see Benga G
 Ben Hamida M, Hentati F: Tunisian severe childhood muscular dystrophy: A normal spinal cord and anterior horn neurons, 156-L
 Benigno V, see Palliyath S

Berardelli A, see Priori A
 Berciano J, Combarros O, Calleja J, Polo JM, Leno C: The application of nerve conduction and clinical studies to genetic counseling in hereditary motor and sensor neuropathy type I, 302-306
 Berck P, see Aitkens S
 Beresford HR, see Vishnubhakata SM
 Berger AR, Shahani BT:
 Electrophysiologic evaluation of spinal cord motor conduction, 976-980
 Beric A, see Levy B
 see Triggs WJ
 Beric A, Light JK: Late reinnervation of the autonomic sacral reflex arc, 783-A
 Bernath B, see Swenson MR
 Bernauer E, see Aitkens S
 Berry C, see Jablecki CK
 Bertelsmann FW, see Doeland HJ
 Bertorini T, see Griffin J
 Bertorini TE, see Cardoso SS
 Besser R, see Gutmann L
 Betto R, see Salviati G
 Betz R, see Balatbat G
 Bianchi A, see Comi G
 Bielawski M, Hallett M: Position of the elbow in determination of abnormal motor conduction of the ulnar nerve across the elbow, 803-809
 Bierner SM, Cohen LG, Hallett M:
 Mechanisms of prolongation of reaction time in Parkinson's disease, 749-750-A
 Biral D, Scarpini E, Angelini C, Salviati G, Margreth A: Myosin heavy chain composition of muscle fibers in spinal muscular atrophy, 43-51
 Bird SJ, Furman RE: Melanoma presenting as chronic inflammatory demyelinating polyneuropathy, 775-A
 Blaivas M, see Donofrio PD
 Bloch M, see Eisen AA
 Bodden H, see Schröder JM
 Bodruzzaman M, see Kilroy AW
 Bohlega S, see Eisen AA
 Bolton CF, Parkes A, Thompson TR, Clark MR, Sterne CJ: Recording sound from human skeletal muscle: Technical and physiological aspects, 126-134
 Bolton CF, Parkes T: Factors determining the morphology of human muscle twitch sound waves, 760-A
 Bontempi B, see Comi G
 Borges O, see Stålberg E
 Borza V, see Benga G
 Bosch EP, see Krain L
 Bowles A, see Spitzer AR
 Bradshaw DY, see Jones HR Jr
 Brandstater ME, Quinio F Jr, Barnwell-Smith J, Davanipour Z:
 Motor unit estimate: A reliability study, 780-A
 Brin M, see Lange DJ
 Britton TC, see Meyer B-U
 Broder S, see Dubinsky RM
 Bromberg MB, Albers JW, McCune WJ:
 Transient Lambert-Eaton myasthenic

syndrome associated with systemic lupus erythematosus, 15-19
 Bromberg MB, Waring WP:
 Neurologically normal patients with suspected postpoliomyelitis syndrome: Electrophysiologic assessment for past denervation, 778-A
 Brown AE, see Ecob-Prince MS
 Brownell AKW, see Hayashi K
 Brucher JM, see Van den Bergh PKY
 Brunet P, see Chaunu M-P
 Brun-Vezinet F, see Chaunu M-P
 Bryant SH, see Camerino DC
 Buchta JF, see Jaweed MM
 Butler IJ, see Triggs WJ
 Butzin CA, see Barohn RJ

C

Calleja J, see Berciano J
 Camacho LM, see Ricker K
 Camerino DC, De Luca A, Mambrini M, Ferrannini E, Franconi F, Giotti A, Bryant SH: The effects of taurine on pharmacologically induced myotonia, 898-904
 Campbell JW, Herbison GJ, Chen YT, Jaweed MM, Gussner CG: Fibrillations in acute and chronic spinal cord injured patients, 778-A
 Campbell WW: AAEE case report #18: Ulnar neuropathy in the distal forearm, 347-352
 Campbell WW, Pridgen RM, Riaz G, Astruc JM, Leahy M, Crostic EG: Sparing of the flexor carpi ulnaris in ulnar neuropathy at the elbow, 965-967
 Canal N, see Comi G
 Canedo J, Massey JM, Nandedkar S, Sanders DB: Quantitative EMG myotonic dystrophy, 761-A
 Cangiano A, see Arancio O
 Cannell CD, see Pease WS

SUBJECT INDEX TO VOLUME 12

This index gives the first author (in parentheses) and the first page of the article, abstract, or letter in which the indexed subject occurs. The reader is referred to the author index for the full title and the following code: A = abstract, L = letter.

A

- Accessory hand muscle, electromyography (McManis) 460
- Acetylcholine receptors
denervated myofibers (Jay) 981
partially denervated muscles (Arancio) 149
- Acetylcholinesterase
denervated myofibers (Jay) 981
inhibitors, congenital myasthenic syndrome refractory to (Triggs) 771-A
- Acid maltase deficiency, α -glucosidase deficiency and (Suhara) 670
- Acquired inflammatory demyelinating polyneuropathies (Albers) 435
- Acrylamide neuropathy, central axon recovery (Kaji) 816
- Action potentials, halothane effects (Iaizzo) 178
- Acute inflammatory demyelinating polyradiculoneuropathy (Gilmore) 538
- Adenylate cyclase, activation (Williams) 968
- Adrenocorticotrophic hormone, nerve regeneration (Horowitz) 314
- Adynamia, episodica, myoballs (Rüdel) 281
- Adynamia episodica hereditaria, weakness (Ricker) 883
- AIDS
with *Mycobacterium avium intracellulare*, muscle and nerve involvement (Wrzolek) 247-L
nerve biopsies (Chaunu) 452
reversible axonal neuropathy (Dubinsky) 856
- AIDS-related complex, nerve biopsies (Chaunu) 452
- Allograft, mdx muscle (Morgan) 401
- Amiodarone, accumulation and myopathy (Carella) 514-L
- Amyloidosis, heart rate variation (Nogués) 1001
- Amyotrophic lateral sclerosis
cortical magnetic stimulation (Eisen) 749-A
heart rate variation (Nogués) 1001
muscle extract effect on cultured neurons (Iwasaki) 425-L
muscle extract effect on neurite outgrowth from ventral spinal cord explants (Iwasaki) 784-A
neuromuscular junction (Alderson) 9
relation of twitch force and motor unit action potential (Dengler) 771-A
survival prediction (Jablecki) 833
therapeutic trials, disease progression measures (Kelly) 771-A
- Anconeus muscle biopsy, in-vitro microelectrode studies (Maselli) 772-A
- Anesthesia, somatosensory evoked potentials observation during (Perlik) 773-A
- Ankle dorsiflexor twitch properties, malignant hyperthermia (Quinlan) 119
- Anoxia, ^{31}P -NMR profile, malignant hyperpyrexia (Foster) 390
- Anterior horn neurons, normal, Tunisian severe childhood muscular dystrophy (Hamida) 156-L
- Anterior interosseous neuropathy, motor conduction (Kern) 763-A
- Anterior latissimus dorsi, maturation, motor innervation and muscle tension role (Gardahaut) 943
- Anterior spinal artery syndrome, complication of cerebral angiography (Levy) 768-A
- Anthracene-9-carboxylic acid, induced myotonia (Camerino) 898
- Anti-diuretic hormone, inappropriate, Lambert-Eaton myasthenic syndrome (Tamulonis) 772-A
- Antineurofilament antibody, cross-reactivity with troponin-T isoform (Takagi) 827
- Arsenic, associated chronic inflammatory demyelinating polyneuropathy (Costigan) 761-A
- Artificial neural net algorithms, motor unit potentials (Pattichis) 753-A
- Asymptomatic hyper-CK-emia (Joy) 206
- Athymic rodents, human muscle growth in (Gulati) 249-L
- Autonomic dysfunction, heart rate variation (Stålberg) 993; (Nogués) 1001
- Autonomic neuropathy, capillary vasomotor function test (Cardose) 765-A
- Autonomic sacral reflex arc, late reinnervation (Beric) 783-A
- Autotransplantation, free muscle (Alameddine) 544
- Axonal neuropathy
altered mechanisms of muscular force generation (Reiners) 647
colchicine-induced (Kuncl) 360
reversible, 2',3'-dideoxycytidine and (Dubinsky) 856
- Axonal peripheral neuropathy, Lowe's syndrome (Chaudhry) 762-A
- Axonal regeneration, focal nerve injury (Thomas) 796
- Axonotmesis (Thomas) 796
- Axons, S-100 α and S-100 β in (Sugimura) 929

B

- Becker dystrophy, internalized myofiber capillaries (Gutmann) 191
- Blink reflex, periodic leg movements of sleep (Yagnik) 758-A
- Blood-nerve barrier, Wallerian degeneration (Seitz) 627
- Bone tumors, childhood peroneal neuropathy from (Levin) 781-A
- Botulinum intoxication, electrical findings (Keesey) 613

Botulinum toxin
focal dystonia treatment (Lange) 750-A
hemifacial spasm therapy (Geller) 716
silver cholinesterase
immunocytochemistry (Alderson) 9
Brachial plexopathy, newborns with,
correlation of thermography and
electroneuromyography (Pavot) 758-A
Brachial plexus neuropathy, nerves
affected (Schrady) 156-L; (England)
158-L
Breath holding, and focal myokymia
(Jacome) 754-A
Bulbocavernosus reflex, modulation
during voiding (Sethi) 892

C

Caffeine
response to in malignant hyperthermia
(Iaizzo) 184
sensitivity, sarcoplasmic reticulum
(Salviati) 365
Calcium
binding proteins, Duchenne dystrophy
(Niebroj-Dobosz) 273
binding sites, localization, muscle cell
surface (Moggio) 910
channel blockers, myotonia effect
(Al-Rajeh) 470
current, malignant hyperpyrexia
(Lamb) 135
sensitivity, muscle fibers (Ruff) 32, 520
Calcium release
mechanisms, sarcoplasmic reticulum
(Salviati) 365
sarcoplasmic reticulum (Damiani) 323
Calsequestrin, levels in Duchenne
dystrophy (Niebroj-Dobosz) 273
Capillary vasomotor function test,
autonomic neuropathy (Cardose) 765-A
Carbamazepine, response in familial
myokymia (Glatz) 774-A
Carbohydrate metabolism, epinephrine
and (Williams) 968
Carcinomatous neuropathy,
electrodiagnostic evolution (Donofrio)
498
Carnitine deficiency, neurogenic atrophy
(Amit) 245-L
Carnitine palmitoyl transferase deficiency,
motor unit potential (Nelson) 760-A
Carpal tunnel syndrome
long-term outlook (Rivner) 764-A
Lyme borreliosis (Halperin) 397
median to radial latency difference test
(Pease) 905
ring finger testing (Uncini) 735
sensitivity of median nerve distal
latency (Kumar) 764-A
surgical decompression, distal latency
of median nerve (Kumar) 764-A
Castration, structural and functional
analysis of skeletal muscle after (Jiang)
67
Catalase, dystrophic mouse (Asayama) 742
Cell labeling, satellite cells (Alameddine)
544
Cellular infiltrates, chronic inflammatory
demyelinating polyradiculoneuropathy
(Krendel) 257

Central cervical disc, focal late response
(Wertsch) 758-A
Central core disease, sarcoplasmic
reticulum and t-tubule ultrastructure
(Hayashi) 95
Central-distal axonopathy, acrylamide
neuropathy (Kaji) 816
Central motor conduction, upper limb
(Malikides) 770-A
Central motor pathways, myotonic
muscular dystrophy (Priori) 785-L
Cerebral angiography, anterior spinal
artery syndrome as complication
(Levy) 768-A
Cervical radiculopathy, diagnosis with
thermography (So) 777-A
Cervical spondylosis
electromyography (Vishnubhakata)
778-A
somatosensory evoked potentials
(Vishnubhakata) 778-A
Charcot-Marie-Tooth disease
longitudinal conduction studies (Roy)
52
nerve conduction velocity (Berciano)
302
see also Hereditary motor and sensory
neuropathy
Charge movement, malignant
hyperpyrexia (Lamb) 135
Chloride channels, taurine effects
(Camerino) 898
Cholinesterase inhibitors, single-fiber
electromyography effects, myasthenia
gravis (Massey) 154
Chronic inflammatory demyelinating
polyneuropathy (Albers) 435
arsenic-associated (Costigan) 761-A
HIV-associated (Chimowitz) 695-L
melanoma presenting as (Bird) 775-A
Chronic inflammatory demyelinating
polyradiculoneuropathy
motor neuropathy with multifocal
conduction blocks (Van den Bergh)
26
sural nerve biopsy (Krendel) 257
Colchicine myoneuropathy,
electrodiagnosis (Kuncl) 360
Cold agglutinin disease, peripheral
neuropathy (Thomas) 775-A
Collagen
accumulation, muscular dystrophy
(Marshall) 528
amino acid composition (Feit) 486
crosslinking, dystrophic muscle (Feit)
476 (Feit) 486
fibers, scanning electron microscopic
studies (Schröder) 221
resistance to collagenolytic attack,
dystrophic muscle (Feit) 476
Collagenase, hydrolysis kinetics (Feit) 476
Collateral sprouting, Org. 2766 effect
(de Koning) 353
Complement, nerve regeneration (Seitz)
627
Compound motor action potentials
false motor points (Swenson) 778-A
ipsilateral tibialis anterior muscle
(Berger) 976
manual versus automatic measurement
(Streib) 755-A
surface area (Pan) 756-A

Compound muscle action potentials
lower extremity, normal variability
(Alexander) 755-A
stimulus site and distance effects
(Alexander) 755-A
Compression neuropathy, ulnar
(Campbell) 965
Computer model, motor unit action
potential simulation (Nandedkar) 197
Concentric needle electrode
compared to monopolar needle, motor
unit potential (Chan) 779-A
disposable versus reusable (Tedman)
753-A
insulated, evoked response
characteristics (Maryniak) 756-A
recording characteristics (Nandedkar)
756-A
sensitivity (Sherman) 756-A
Concentric needle electromyography,
motor unit action potentials
(Nandedkar) 752-A
Conduction blocks, multifocal, motor
neuropathy (Van den Bergh) 26
Congenital myasthenia, electrical findings
(Keesey) 613
Congenital myasthenic syndrome,
refractory to acetylcholinesterase
inhibitors (Triggs) 771-A
Congenital nemaline myopathy,
electromyography (Wallgren-
Pettersson) 587
Contractility, epinephrine effect
(Williams) 968
Contraction time, hyperparathyroidism
(Joborn) 87
Contracture
halothane effects (Iaizzo) 178
test, malignant hyperthermia
susceptibility (Iaizzo) 184
Cortical magnetic stimulation,
amyotrophic lateral sclerosis (Eisen)
749-A
Cortical potentials
multichannel movement-associated,
software system recording
(Goldberg) 770-A
premovement, preceding toe
movements (Tarkka) 770-A
Cramps, associated with tubular
aggregates and cylindrical spirals
(Danon) 265
Creatine kinase
associated with exercise (Maughan)
332
elevated (Joy) 206
late polio sequelae (Nelson) 760-A
Cricothyroid muscle, electromyography,
spastic dysphonia (Rodriguez) 769-A
Crosslinking, dystrophic collagen (Feit)
476 (Feit) 486
Cross-reactivity, antineurofilament
antibody with troponin-T isoform
(Takagi) 827
Cushing's syndrome, muscle protein
synthesis (Pacy) 378
Cutaneous nerve
posterior femoral, injection injury
(Iyer) 780-A
stimulation, spinal evoked potentials
(Pelosi) 777-A

Cyclosporine, acquired myopathy (Costigan) 761-A
Cylindrical spirals, muscle pain associated with (Danon) 265

D

Dantrolene, malignant hyperthermia, surface membrane effects (Iaizzo) 178
Dapsone-induced peripheral neuropathy (Navarro) 604-L
Demyelinating neuropathy
altered mechanisms of muscular force generation (Reiners) 647
single-fiber electromyography (Oh) 371
Demyelinating polyneuropathy (Albers) 705
Demyelination
nerve conduction (Krurup) 915
segmental (Ohnishi) 568
Denervation
myofibers, neurite interactions and synaptic molecules (Jay) 981
slow-tonic muscle maturation (Gardahaut) 943
Dermatomyositis, childhood recurrence in adulthood (Cooper) 760-A
Diabetes mellitus
heart rate variability (Comi) 768-A
pain threshold (Assal) 246-L
small nerve fiber neuropathy, following pancreas transplantation (Kennedy) 767-A
spontaneous, peripheral neuropathy (Cornblath) 233
thermal threshold (Assal) 246-L
Diabetic neuropathy
heart rate variation (Nogués) 1001
small nerve fiber dysfunction (Navarro) 498
sudomotor axon reflex test (Maselli) 420
Diazacholesterol, induced myotonia (Camerino) 898
Diazepam, effect on lumbar and neck somatosensory evoked potentials (Pfeiffer) 473
2,4-Dichlorophenoxyacetic acid, induced myotonia, diltiazem effect (Al-Rajeh) 470
2',3'-Dideoxycytidine, reversible axonal neuropathy and (Dubinsky) 856
Digital nerve injury, electrodiagnosis (Green) 752-A
Diltiazem, effect on 2,4-D-induced myotonia (Al-Rajeh) 470
Dimensionality reduction (Nandedkar) 288
Distal forearm, ulnar neuropathy (Campbell) 347
Distal latency, median nerve sensitivity, carpal tunnel syndrome (Kumar) 764-A
surgical decompression of carpal tunnel syndrome (Kumar) 764-A
Distal stump, effect on nerve regeneration (Thomas) 796
Disused muscle, fatigue and (Hainaut) 660
Double peaked potential, carpal tunnel syndrome (Uncini) 735

Duchenne muscular dystrophy
defective gene (Marshall) 528
dystrophin (see Dystrophin)
erythrocytes, water permeability and proteins (Benga) 294
glycerol kinase deficiency (Seltzer) 307
subcellular fraction proteins (Niebroj-Dobosz) 273
wrist and hand function (Wagner) 236
Dying-back degeneration (Krurup) 915
Dyskinesias, restless leg syndrome (Hening) 751-A
Dysproteinemic neuropathy (Albers) 435
Dystrophic mouse, lipid peroxidase and antioxidant (Asayama) 742
Dystrophic muscle
nondystrophic myoblast transplantation into (Karpati) 337-L;
(Law) 338-L
resistance to collagenolytic attack (Feit) 476
Dystrophin (Marshall) 528
distribution in heterozygote mdx mouse (Watkins) 861
expression (Ecob-Prince) 594
Dystrophin localization and characterization in muscle biopsy, Duchenne dystrophy and neuromuscular disorders (Uchino) 1009
in muscle cultures (Ecob-Prince) 594

E

Ectopic excitation, hemifacial spasm (Geller) 716
Elbow position, abnormal motor conduction of ulnar nerve (Bielawski) 803
Electrical stimulator
effect on nerve structures (Claus) 769-A
fatigue and (Hainaut) 660
motor cortex (Estrem) 769-A
peripheral nerves (Olney) 750-A
Electrodiagnosis, digital nerve injury (Green) 752-A
Electromagnetic stimulation, terminal regeneration-caused peripheral reinnervation (Jaweed) 783-A
Electromyography
accessory hand muscle (McManis) 460
asymptomatic hyper-CK-emia (Joy) 206
cervical spondylosis (Vishnubhak) 778-A
childhood peroneal neuropathy (Levin) 781-A
computer-based teaching aid (Roy) 774-A
computerized interpretation (Jamieson) 757-A
congenital nemaline myopathy (Wallgren-Petersson) 587
digital filtering, automated decomposition (Spitzer) 779-A
focal inflammatory myopathy (Joy) 766-A
force/diameter relationships in muscle (Ferrell) 759-A
Guillain-Barré syndrome (Jones) 774-A

heart rate variation analysis (Stålberg) 993; (Nogués) 1001
hemifacial spasm (Geller) 716
hereditary muscle mechanical irritability and progressive contracture (Jusić) 103
interference pattern, concentric versus monopolar needle electrodes (Nandedkar) 756-A
late polio sequelae (Nelson) 760-A
microcomputer based on-line analysis, voluntary ramp muscle contraction (Kilroy) 779-A
muscle autotransplant reinnervation (Iyer) 783-A
myotonic dystrophy (Canedo) 761-A
needle localization in paraspinous muscle (Haig) 774-A
orthostatic tremor (McCormick) 751-A
patterns, torticollis (Dubinsky) 770-A
referring diagnosis and electro-diagnostic comparison (Massey) 757-A
spastic dysphonia, cricothyroid and vocalis muscles (Rodríguez) 769-A
Electroneuromyography, correlation with thermography, newborns with brachial plexopathies (Pavot) 758-A
Electrophysiology
disease progression measures, amyotrophic lateral sclerosis therapeutic trials (Kelly) 771-A
predictive testing, Huntington's disease (Eisen) 769-A
quadriceps femoris muscle (Stålberg) 382
spinal stenosis (Joy) 766-A
tomaculous neuropathy (Oh) 764-A
Enclosed fiber method, fiber type grouping (Lexell) 1024-L; (Venema) 1025-L
Ephaptic transmission, hemifacial spasm (Geller) 716
single-fiber electromyography (Sanders) 690
Epinephrine, inotropic effect on skeletal muscle (Williams) 968
Erythrocytes
sodium and potassium contents (Marx) 810
water permeability and proteins, Duchenne dystrophy (Benga) 294
Excitation-contraction coupling
epinephrine effect (Williams) 968
malignant hyperpyrexia (Lamb) 135
malignant hyperthermia (Quinlan) 119
Exercise
delayed-onset muscle damage and lipid peroxidation (Maughan) 332
induced myalgia, internalized myofiber capillaries (Gutmann) 191
Expiratory/inspiratory ratio, diabetic neuropathy (Maselli) 420
Extensor digitorum longus, structural and functional analysis after castration (Jiang) 67
Extracellular calcium influx, epinephrine and (Williams) 968
Entrapment neuropathy, ulnar (Campbell) 965

F

- Facial muscle, hemifacial spasm (see Hemifacial spasm)
- Familial bulking up myopathy (Petajan) 754-A
- Familial myokymia, carbamazepine response (Glatz) 774-A
- Fatigue
 - active motor units (Arendt-Nielsen) 493
 - training and disuse effects (Hainant) 660
- Fat tissue, nerve regeneration effects (Weis) 723
- Fiber, characteristics, quadriceps femoris muscle (Stålberg) 382
- Fiber types
 - calcium sensitivity (Ruff) 32, 520
 - grouping, enclosed fiber method (Lexell) 1024-L; (Venema) 1025-L
 - neurally directed transformation (Sawchak) 679
 - spatial distribution (Pernüs) 696-L (Venema) 697-L
- Fiber typing (Takagi) 827
- Fibrillation
 - potentials, partially denervated muscles (Arancio) 149
 - spinal cord injury (Campbell) 778-A
- Fibroblasts, nerve regeneration role (Thomas) 796
- Finger contracture, muscle mechanical irritability (Jusić) 103
- Flexor carpi radialis, H reflex (Jabre) 523
- Flexor carpi ulnaris, sparing, ulnar neuropathy (Campbell) 965
- Flux measurements, potassium (Marx) 810
- Focal dystonia, treatment with botulinum toxin (Lange) 750-A
- Focal inflammatory myopathy, electromyography and magnetic resonance imaging (Joy) 766-A
- Focal myokymia, breath holding and (Jacome) 754-A
- Focal nerve injury, axonal regeneration (Thomas) 796
- Fontana, Felice (Jacome) 754-A
- Forearm, modeling of magnetic coil activation (Maccabee) 750-A
- Free radicals, associated with exercise (Maughan) 332
- F response analysis, motoneuron discharge inhibition by peripheral nerve stimulation (Fisher) 758-A
- F waves
 - acute inflammatory demyelinating polyradiculoneuropathy (Gilmore) 538
 - central cervical disc (Wertsch) 758-A
 - conduction data compared with motor conduction velocity (Tanenbaum) 758-A
 - dynamic, neurogenic claudication (London) 759-A
- G
 - Gangliosides, nerve regeneration (Horowitz) 314
 - Gelatin, denervated myofibers (Jay) 981

- Genetic counseling, hereditary motor and sensory neuropathy (Berciano) 302
- α -Glucosidase, deficiency and acid maltase deficiency (Suhara) 670
- Glutathione peroxidase, dystrophic mouse (Asayama) 742
- Glycerol kinase deficiency syndrome, Duchenne dystrophy (Seltzer) 307
- Glycogenesis type II (Suhara) 670
- Glycolytic myopathies, MRI of muscle injury and atrophy (Fleckenstein) 849
- Guillain-Barré syndrome (Albers) 705
- childhood (Jones) 774-A
- heart rate variation (Nogués) 1001

H

- Halothane
 - malignant hyperpyrexia effect (Lamb) 135; (Foster) 390
 - malignant hyperthermia (Gallant) 56; (Iaizzo) 178; (Iaizzo) 184
- Hamster, diaphragm, muscle fiber types (Reid) 108
- Hand
 - dominance and nerve conduction velocity of peripheral nerve (Palliyath) 765-A
 - function, Duchenne muscular dystrophy (Wagner) 236
- Handcuff neuropathy (Scott) 219
- Heart rate variability
 - automatic analysis (Stålberg) 993; (Nogués) 1001
 - diabetes mellitus (Comi) 768-A
- Hemifacial spasm
 - botulinum toxin therapy (Geller) 716
 - ephaptic transmission (Geller) 716; (Sanders) 690
- Hereditary motor and sensory neuropathy (Chad) 875; (Ohnishi) 568
- Charcot-Marie-Tooth disease (see Charcot-Marie-Tooth disease)
- longitudinal conduction studies (Roy) 52
- nerve conduction (Chad) 875
- nerve conduction velocity (Berciano) 302
- proximal and distal conduction velocity in motor nerves (Meer) 762-A
- High sciatic lesion, mimicking peroneal neuropathy (Katiirji) 780-A
- HIV-associated chronic inflammatory demyelinating polyneuropathy (Chimowitz) 695-L
- HIV infection
 - nerve biopsies (Chaunu) 452
 - peripheral nervous system (Barohn) 762-A
 - treatable myopathies associated with (Chalmers) 753-A
- HIV seropositivity, recurrent myoglobinuria (Younger) 842
- H reflex
 - flexor carpi radialis (Jabre) 523
 - single motor unit potential, motor neuron disease (Soliven) 771-A
 - stimulus duration (Panizza) 576

- Huntington's disease, electrophysiologic predictive testing (Eisen) 769-A
- Hyperkalemic periodic paralysis, adynamia episodica hereditaria (Ricker) 883
- Hyperkalemic weakness (Streib) 936
- Hyperparathyroidism, muscle function (Joborn) 87
- Hyperthermia
 - fast and slow fibers, caffeine sensitivity (Salviati) 365
 - malignant (see Malignant hyperthermia)
- Hypokalemic paralysis
 - paramyotonia congenita (Streib) 936
 - periodic (Marx) 810

I

- Idiopathic thrombocytopenia purpura, motoneuropathy multiplex complicating (Greenberg) 763-A
- Immunoblotting, dystrophin localization and characterization in muscle biopsy (Unchino) 1009
- Immunoglobulin G, nerve regeneration (Seitz) 627
- Immunostaining, dystrophin localization and characterization in muscle biopsy (Unchino) 1009
- Immunosuppressive therapy, Lambert-Eaton syndrome, electrophysiologic response to (Gutmann) 776-A
- Implanted electrodes, nerve conduction (Krurup) 915
- Inflammatory myopathy, associated with HIV infection (Chalmers) 753-A
- Injection injury, posterior femoral cutaneous nerve (Iyer) 780-A
- Interfering stimulus effect, somatosensory evoked potential (Reisin) 598
- Intracellular calcium ion exchange, epinephrine and (Williams) 968
- Intrafusal muscle fibers, scanning electron microscopic studies (Schröder) 221
- In-vitro microelectrode studies, anconeus muscle biopsy (Maselli) 772-A
- Ipsilateral tibialis anterior muscle, compound motor action potentials (Berger) 976
- Isaac's syndrome, pathophysiology (Kurtzke) 754-A
- Ischemia, irreversibility, ^{31}P -NMR (Rossi) 20
- Ischemic lumbosacral plexopathy, vascular compromise (Cifu) 768-A
- Ischemic monomelic neuropathy (Levin) 791
- Isokinetic dynamometry, neuromuscular disease evaluation (Griffin) 759-A
- Isometric contraction (Badke) 580
- Isometric strength measurements, relationship to manual muscle testing (Aitkens) 173
- Izido thymidine myopathy, associated with HIV infection (Chalmers) 753-A

J

- Jejunoileal bypass, late myeloneuropathy following (Subramony) 774-A
- Jitter
 - H reflex (Jabre) 523
 - myasthenia gravis (Jabre) 38

L

- Lactate dehydrogenase kinase, associated with exercise (Maughan) 332
- Lambert-Brodsky syndrome (Petajan) 754-A
- Lambert-Eaton myasthenic syndrome associated with systemic lupus erythematosus (Bromberg) 15
- electrical findings (Keesey) 613
- electrophysiologic response to immunosuppressive treatment (Gutmann) 776-A
- inappropriate anti-diuretic hormone (Tamulonis) 772-A
- remission, single-fiber electromyography (Oh) 844
- repetitive nerve stimulation test (Oh) 464
- single-fiber electromyography (Oh) 159-L
- Laminin, effects on reinnervation of target organs by regenerative nerves (Navarro) 783-A
- Leucine, kinetics, steroid myopathy (Pacy) 378
- Limulus Polyphemus, localization of calcium binding sites (Moggio) 910
- Lipid myopathy, in elderly (Fine) 767-A
- Lipid peroxide
 - associated with exercise (Maughan) 332
 - dystrophic mouse (Asayama) 742
- Lower extremity
 - compound muscle action potentials, normal variability (Alexander) 755-A
 - stimulation of mixed and cutaneous nerves, spinal evoked potentials (Pelosi) 777-A
 - Lowe's syndrome, axonal peripheral neuropathy (Chaudhry) 762-A
 - Lysosomes, acid maltase deficiency (Suhara) 670

M

- Magnetic nerve stimulator, diagnostic use (Meyer) 953-L; (Evans) 954-L
- Magnetic coil, activation modeling (Maccabee) 750-A
- Magnetic resonance imaging
 - focal inflammatory myopathy (Joy) 766-A
 - muscle injury and atrophy, glycolytic myopathies (Fleckenstein) 849
- Magnetic stimulation

 Tubular aggregates, muscle pain associated with (Danon) 265
 Twitch
 ankle dorsiflexor, malignant hyperthermia (Quinlan) 119
 relation of force to motor unit action potential, amyotrophic lateral sclerosis (Dengler) 771-A
 sound recording (Bolton) 126
 sound waves, morphology (Bolton) 760-A
 Twitch potentiation
 epinephrine effect (Williams) 968
 hyperparathyroidism (Joborn) 87

U

Ulnar nerve
 abnormal motor conduction, elbow position (Bielawski) 803
 carpal tunnel syndrome (Pease) 905
 injury, from handcuffs (Scott) 219
 Ulnar neuropathy
 distal forearm (Campbell) 347
 flexor carpi ulnaris sparing (Campbell) 965
 Upper limb, central and peripheral proximal motor conduction (Malikides) 770-A

Upper motor neuron lesions, bladder dysfunction (Sethi) 892

V

Variegate porphyria, neuropathy electrodiagnosis (Reincke) 765-A
 Vascular compromise, ischemic lumbosacral plexopathy (Cifu) 768-A
 Vascular thoracic outlet syndrome (Cuether) 410
 Vasculitis, HIV infection (Chaunu) 452
 Ventilator, prolonged dependence, neuromuscular causes (Spitzer) 775-A
 Ventral spinal cord explants
 neurite outgrowth, amyotrophic lateral sclerosis muscle extract effect (Iwasaki) 784-A
 neuropeptide trophic effect (Iwasaki) 784-A
 Vincristine toxicity, skeletal muscle (Di Gregorio) 1017
 Vitamin B12 deficiency, physiologic analysis of recovery (Fine) 767-A
 Vocalis muscle, electromyography, spastic dysphonia (Rodriguez) 769-A
 Voiding, modulation of bulbocavernous reflex during (Sethi) 892
 Voluntary contraction
 isometric (Nordstrom) 556
 ramp muscle, microcomputer based on-line electromyography analysis (Kilroy) 779-A
 single motor unit potential, pansensory neuropathy (Cross) 768-A

W

Wallerian degeneration, blood-nerve barrier (Seitz) 627
 Water permeability, erythrocytes, Duchenne dystrophy (Benga) 294
 Weakness
 cold-induced, adynamia episodica hereditaria (Ricker) 883
 exercise-induced, paramyotonia congenita (Streib) 936
 hyperkalemic (Streib) 936
 pyridostigmine-induced, pseudo-myasthenic syndrome (Oh) 776-A
 Weight reduction, as peroneal neuropathy risk factor (Krain) 763-A
 Werdnig-Hoffman disease, myosin heavy chain composition (Biral) 43
 Wrist function, Duchenne muscular dystrophy (Wagner) 236

X

X-ray irradiation, spontaneous regeneration inhibition (Alameddine) 544
